## KEPUTUSAN YANG PERLU MENDAPAT PERSETUJUAN DEWAN KOMISARIS

Menindaklanjuti Peraturan Bank Indonesia No. 11/33/PBI/2009 tentang Pelaksanaan *Good Corporate Governance* bagi Bank Umum Syariah dan Unit Usaha Syariah pasal 8 ayat (4), dalam melakukan pengawasan, Dewan Komisaris dilarang ikut serta dalam pengambilan keputusan kegiatan operasional Bank. Ketentuan itu tidak termasuk dalam pengambilan keputusan untuk pemberian pembiayaan kepada Direksi sepanjang kewenangan Dewan Komisaris tersebut ditetapkan dalam Anggaran Dasar Bank atau dalam Rapat Umum Pemegang Saham.

Selanjutnya PBI tersebut juga mengatur bahwa Dewan Komisaris dapat ikut serta dalam pengambilan keputusan atas hal-hal lain yang ditetapkan dalam Anggaran Dasar Bank atau peraturan perundang-undangan. Pengambilan keputusan kegiatan operasional Bank oleh Dewan Komisaris sebagaimana dimaksud di atas ialah bagian dari tugas pengawasan oleh Dewan Komisaris. Sehingga, tidak meniadakan tanggung jawab Direksi atas pelaksanaan kepengurusan Bank.

## DECISIONS REQUIRING THE APPROVAL BOARD OF COMMISSIONERS

Following up on Bank Indonesia Regulation No. 11/33/PBI/2009 on the Implementation of Good Corporate Governance for Sharia Commercial Banks and Sharia Business Units article 8 paragraph (4), in conducting supervision, the Board of Commissioners is prohibited from participating in decision-making on the Bank's operational activities. This provision does not include decision-making for financing to the Board of Directors to the extent that the authority of the Board of Commissioners is stipulated in the Bank's Articles of Association or the General Meeting of Shareholders.

Furthermore, the PBI stipulates that the Board of Commissioners may participate in decision-making on other matters stipulated in the Bank's Articles of Association or laws and regulations. Decision-making on the Bank's operational activities by the Board of Commissioners, as referred to above, is part of the supervisory duties of the Board of Commissioners. Thus, it does not negate the responsibility of the Board of Directors to implement the Bank's management.

## RISK MANAGEMENT CERTIFICATION

Competence and expertise in risk management are the requirements that must be acquired by the Board of Commissioners to effectively oversee the implementation of the Bank's risk management. This is also confirmed by the Regulation of the Financial Services Authority of the Republic of Indonesia Number 24 of 2022 concerning the Development of the Quality of Human Resources of Commercial Banks, which stipulates that the Board of Commissioners and Directors are required to have Work Competency Certification in the field of risk management issued by the relevant Professional Certification Institution.

# Penilaian Dewan Komisaris dan Direksi

## Assessment of the Board of Commissioners and the Board of Directors

### PENILAIAN DEWAN KOMISARIS

#### Prosedur Penilaian

Pelaksanaan penilaian kinerja Dewan Komisaris dilakukan setiap tahun (paling sedikit satu tahun sekali) melalui mekanisme *self-assessment*. Proses ini diawali dengan pengisian kertas kerja yang berisi kriteria/indikator pelaksanaan tugas dan tanggung jawab sesuai ketentuan yang berlaku serta atas kompetensi kinerja Dewan Komisaris selama satu semester/tahun.

Hasil penilaian tersebut disampaikan kepada pemegang saham dan dievaluasi melalui RUPS Tahunan. Pada penyerahan laporan, RUPS juga memberikan pelunasan dan pembebasan tanggung jawab sepenuhnya (*volledig acquit et de charge*) kepada Dewan Komisaris atas tindakan pengelolaan (pengawasan) yang dilakukan pada tahun buku yang berakhir pada akhir tahun, sepanjang tindakan tersebut tercermin dari Laporan Tahunan dan Laporan Keuangan Perseroan serta bukan merupakan tindak pidana atau pelanggaran terhadap ketentuan peraturan perundang-undangan yang berlaku.

Hasil evaluasi terhadap kinerja secara keseluruhan dan masing-masing anggota Dewan Komisaris secara individual menjadi pertimbangan dalam skema kompensasi dan pemberian insentif serta menjadi salah satu dasar pertimbangan Pemegang Saham untuk memberhentikan dan/atau menunjuk kembali anggota Dewan Komisaris yang bersangkutan. Hasil evaluasi kinerja Dewan Komisaris, baik sebagai Dewan Komisaris maupun individu kemudian menjadi sarana penilaian serta peningkatan efektivitas Dewan Komisaris.

#### Kriteria Penilaian

Kriteria penilaian kinerja Dewan Komisaris secara umum ditetapkan berdasarkan tugas kewajiban yang tercantum dalam peraturan perundang-undangan yang berlaku dan Anggaran Dasar Perusahaan maupun amanat Pemegang Saham. Kriteria evaluasi disampaikan secara terbuka kepada Dewan Komisaris sejak pengangkatan pertamanya.

### BOARD OF COMMISSIONERS ASSESSMENT

#### Assessment Procedure

The implementation of the Board of Commissioners performance assessment is carried out annually (at least once a year) through a self-assessment mechanism. This process begins with filling out a working paper containing criteria/indicators of the implementation of duties and responsibilities in accordance with applicable regulations and on the performance competence of the Board of Commissioners for one semester/year.

The assessment results are then submitted to the shareholders and evaluated through the Annual GMS. At the submission of the report, the GMS also granted full release and discharge (*volledig acquit et de charge*) to the Board of Commissioners for the management (supervisory) actions carried out in the financial year ended at the end of the year, as long as such actions are reflected in the Company's Annual Report and Financial Statements and do not constitute a criminal offense or violation of the provisions of applicable laws and regulations.

The results of the evaluation of the performance of the Board of Commissioners as a whole and each member of the Board of Commissioners individually are taken into consideration in the compensation and incentive scheme and become one of the bases for consideration by the Shareholders to dismiss and/or reappoint the members of the Board of Commissioners concerned. The results of the evaluation of the performance of the Board of Commissioners, both as a Board of Commissioners and individually, then become a means of assessing and improving the effectiveness of the Board of Commissioners.

#### Assessment Criteria

The criteria for evaluating the performance of the Board of Commissioners are generally determined based on the duties and obligations stated in the prevailing laws and regulations and the Company's Articles of Association as well as the mandate of the Shareholders. The evaluation criteria are disclosed to the Board of Commissioners upon their first appointment.

Aspek kriteria *self-assessment* Dewan Komisaris terbagi menjadi 3 (tiga), yaitu aspek: *Governance Structure* (14 indikator), *Governance Process* (20 indikator) dan *Governance Outcome* (8 indikator).

Aspects of the Board of Commissioners self-assessment criteria are divided into 3 (three), namely aspects: *Governance Structure* (14 indicators), *Governance Process* (20 indicators), and *Governance Outcome* (8 indicators).

### **Tanggung Jawab Manajemen dan Pihak yang Bertanggung Jawab atas Tata Kelola terhadap Laporan Keuangan**

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Dalam penyusunan laporan keuangan, manajemen bertanggung jawab untuk menilai kemampuan Bank dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intensi untuk melikuidasi Bank atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Bank.

### **Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan**

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan tersebut.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.

### **Responsibilities of Management and Those Charged with Governance for the Financial Statements**

*Management is responsible for the preparation and fair presentation of the financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.*

*In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.*

*Those charged with governance are responsible for overseeing the Bank's financial reporting process.*

### **Auditor's Responsibilities for the Audit of the Financial Statements**

*Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.*

*As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:*

- *Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.*

### Tanggung Jawab Auditor terhadap Audit atas Laporan Keuangan (Lanjutan)

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga: (lanjutan)

- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal Bank.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.
- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Bank untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Bank tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.

Kami mengomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit, serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

### Auditor's Responsibilities for the Audit of the Financial Statements (Continued)

*As part of an audit in accordance with Standards on Auditing, we exercise professional judgment and maintain professional skepticism throughout the audit. We also: (continued)*

- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control*
- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*
- *Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern*
- *Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.*

*We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.*

## 2. IKHTISAR KEBIJAKAN AKUNTANSI (Lanjutan)

### c. Cadangan Kerugian Penurunan Nilai Aset Produktif dan Aset Non-Produktif (lanjutan)

Kriteria yang digunakan oleh Bank untuk menentukan bukti objektif dari penurunan nilai adalah sebagai berikut:

- (1) kesulitan keuangan signifikan yang dialami penerbit atau pihak peminjam;
- (2) pelanggaran kontrak, seperti terjadinya wanprestasi atau tunggakan pembayaran pokok atau margin;
- (3) pihak pemberi pinjaman, dengan alasan ekonomi atau hukum sehubungan dengan kesulitan keuangan yang dialami pihak peminjam, memberikan keringanan (konsesi) pada pihak peminjam yang tidak mungkin diberikan jika pihak peminjam tidak mengalami kesulitan tersebut;
- (4) terdapat kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya;
- (5) hilangnya pasar aktif dari aset keuangan akibat kesulitan keuangan; atau
- (6) data yang dapat diobservasi mengindikasikan adanya penurunan yang dapat diukur atas estimasi arus kas masa datang dari kelompok aset keuangan sejak pengakuan awal aset dimaksud, meskipun penurunannya belum dapat diidentifikasi terhadap aset keuangan secara individual dalam kelompok aset tersebut, termasuk:
  - a. memburuknya status pembayaran pihak peminjam dalam kelompok tersebut; dan
  - b. kondisi ekonomi nasional atau lokal yang berkorelasi dengan wanprestasi atas aset dalam kelompok tersebut.

Estimasi periode antara terjadinya peristiwa dan teridentifikasinya kerugian ditentukan oleh manajemen untuk setiap portofolio yang diidentifikasi. Pada umumnya, periode tersebut bervariasi antara 3 (tiga) sampai 12 (dua belas) bulan, untuk kasus tertentu diperlukan periode yang lebih lama.

Bank pertama kali menentukan apakah terdapat bukti objektif penurunan nilai secara individual atas aset keuangan yang signifikan, dan secara individual atau kolektif untuk aset keuangan yang tidak signifikan secara individual.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### c. Allowance for Impairment Losses on Earning and Non-Earning Assets (continued)

The criteria used by the Bank to determine objective evidence of impairment are as follows:

- (1) significant financial difficulty of the issuer or obligor;
- (2) any breach of contract, such as a default or delinquency in margin or principal payments;
- (3) the lender, for economic or legal reasons relating to the debtor's financial difficulty, grants the debtor a concession that the lender would not otherwise consider;
- (4) it becomes probable that the debtor will enter into bankruptcy or other financial reorganization;
- (5) the disappearance of an active market of financial assets due to financial difficulties; or
- (6) observable data indicating that there is a measurable decrease in the estimated future cash flows from a portfolio of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified individually in the portfolio, including:
  - a. adverse changes in the payment status of debtors in the portfolio; and
  - b. national or local economic conditions that correlate with breach of contract of the assets in the portfolio.

The estimated period between the occurrence of an event and loss identification is determined by the management for each identified portfolio. In general, the period varies from 3 (three) months to 12 (twelve) months, in exceptional cases, longer periods are necessary.

The Bank first determines whether there is an objective evidence of impairment on financial assets that are individually significant and individually or collectively on financial assets that are not individually significant.

**2. IKHTISAR KEBIJAKAN AKUNTANSI  
(Lanjutan)****c. Cadangan Kerugian Penurunan Nilai Aset Produktif dan Aset Non-Produktif (lanjutan)**

Jika Bank menentukan tidak terdapat bukti objektif mengenai penurunan nilai atas aset keuangan yang dinilai secara individual, terlepas aset keuangan tersebut signifikan atau tidak, maka Bank memasukkan aset tersebut ke dalam kelompok aset keuangan yang memiliki karakteristik risiko pembiayaan yang serupa dan menilai penurunan nilai kelompok tersebut secara kolektif. Aset keuangan yang penurunan nilainya dilakukan secara individual, dan untuk itu kerugian penurunan nilai telah diakui atau tetap diakui, tidak termasuk dalam penilaian penurunan nilai secara kolektif.

Bank menetapkan piutang *murabahah* yang harus dievaluasi penurunan nilainya secara individual, jika memenuhi salah satu kriteria di bawah ini:

1. Piutang *murabahah* yang secara individual memiliki nilai signifikan dan memiliki bukti objektif penurunan nilai;
2. Piutang *murabahah* yang direstrukturasikan yang secara individual memiliki nilai signifikan.

Berdasarkan kriteria di atas, Bank melakukan penilaian secara individual untuk piutang *murabahah* dengan plafond lebih besar atau sama dengan Rp25.000.000 dengan kolektibilitas kurang lancar, diragukan dan macet pada tanggal 31 Desember 2022 dan 2021.

Bank menetapkan piutang *murabahah* yang harus dievaluasi penurunan nilainya secara kolektif, jika memenuhi salah satu kriteria di bawah ini:

1. Piutang *murabahah* yang secara individual memiliki nilai signifikan namun tidak memiliki bukti objektif penurunan nilai;
2. Piutang *murabahah* yang secara individual memiliki nilai tidak signifikan;
3. Piutang *murabahah* yang direstrukturasikan yang secara individual memiliki nilai tidak signifikan.

Perhitungan cadangan kerugian penurunan nilai atas aset keuangan yang dinilai secara kolektif dikelompokkan berdasarkan karakteristik risiko piutang yang sama dengan mempertimbangkan segmentasi piutang berdasarkan pengalaman kerugian masa lalu (*probability of default*).

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (Continued)****c. Allowance for Impairment Losses on Earning and Non-Earning Assets (continued)**

*If the Bank determines that there is no objective evidence of impairment for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar financing risk characteristics and collectively assesses them for impairment. Financial assets that are individually assessed for impairment, and for which an impairment loss is or continues to be recognized, are excluded in the collective assessment of impairment.*

*The Bank determines murabahah receivables to be evaluated for impairment through individual evaluation if one of the following criteria exists:*

1. *Murabahah receivables which individually have significant value with objective evidence of impairment;*
2. *Restructured murabahah receivables which individually have significant value.*

*Based on the above criteria, the Bank performs individual assessment for murabahah receivables with limit greater than or equal to Rp25,000,000 with collectibility classification of substandard, doubtful and loss as of December 31, 2022 and 2021.*

*The Bank determines murabahah receivables to be evaluated for impairment through collective evaluation if one of the following criteria exists:*

1. *Murabahah receivables which individually have significant value but there is no objective evidence of impairment;*
2. *Murabahah receivables which individually have non significant value;*
3. *Restructured murabahah receivables which individually have non significant value.*

*The calculation of allowance for impairment losses on financial assets which are evaluated collectively is grouped based on similar receivable risk characteristics and by taking into account the receivable segmentation on the basis of historical loss experience (probability of default).*

**2. IKHTISAR KEBIJAKAN AKUNTANSI  
(Lanjutan)****c. Cadangan Kerugian Penurunan Nilai Aset Produktif dan Aset Non-Produktif (lanjutan)**

Bank menggunakan metode *net flow rate* dan *migration analysis* yang merupakan suatu metode analisis statistik, untuk menilai cadangan kerugian penurunan nilai atas piutang yang diberikan secara kolektif. Bank menggunakan data historis minimal 3 (tiga) tahun dalam menghitung *Probability of Default* (PD) dan *Loss of Given Default* (LGD).

Bank menggunakan nilai wajar agunan sebagai dasar arus kas masa datang apabila memenuhi salah satu kondisi berikut:

1. Piutang dan pembiayaan bersifat *collateral dependent*, yaitu jika pelunasan pembiayaan hanya bersumber dari agunan;
2. Pengambilalihan agunan kemungkinan besar terjadi dan didukung dengan perjanjian legal pengikatan agunan.

Kerugian penurunan nilai atas aset keuangan yang dicatat pada biaya perolehan diamortisasi diukur sebesar selisih antara nilai tercatat aset keuangan dengan nilai kini estimasi arus kas masa datang yang didiskonto menggunakan tingkat margin efektif awal dari aset keuangan tersebut.

Kerugian yang terjadi diakui pada laporan laba rugi dan penghasilan komprehensif lain dan dicatat pada akun cadangan kerugian penurunan nilai sebagai pengurang terhadap aset keuangan yang dicatat pada biaya perolehan diamortisasi.

Penerimaan kembali atas aset keuangan yang diberikan yang telah dihapusbukukan, pada tahun berjalan dikreditkan dengan menyesuaikan akun cadangan kerugian penurunan nilai. Penerimaan kembali atas pinjaman yang diberikan yang telah dihapusbukukan pada tahun-tahun sebelumnya dicatat sebagai pendapatan operasional selain margin.

Terhadap aset produktif atas piutang *istishna*, pinjaman *qardh*, pembiayaan *mudharabah*, pembiayaan *musyarakah*, aset yang diperoleh untuk *ijarah*, serta komitmen dan kontinjensi yang memiliki risiko pembiayaan seperti bank garansi dan *Letter of Credit* (LC), Bank menerapkan Peraturan Otoritas Jasa Keuangan (POJK) No.2/POJK.03/2022 tanggal 31 Januari 2022 tentang "Penilaian Kualitas Aset Bank Umum Syariah dan Unit Usaha Syariah" yang berlaku efektif tanggal 1 Januari 2022.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)****c. Allowance for Impairment Losses on Earning and Non-Earning Assets (continued)**

The Bank uses *net flow rate* method and *migration analysis* which is a statistical analysis method to assess allowance for impairment losses on collective receivables. The Bank uses at least 3 (three) years historical data to compute the *Probability of Default* (PD) and *Loss of Given Default* (LGD).

The Bank uses the fair value of collateral as the basis for future cash flow if one of the following conditions is met:

1. Claim and account receivables are collateral dependent, i.e. if the source of loans repayment is only from the collateral;
2. Takeover of collateral is most likely to occur and be supported by legally binding collateral agreement.

Impairment losses on financial assets carried at amortized cost are measured as the difference between the carrying amount of the financial assets and present value of estimated future cash flows discounted at the financial assets original effective margin rate.

Losses are recognized in statement of profit or loss and other comprehensive income and reflected in an allowance for impairment losses account against financial assets carried at amortized cost.

The recoveries of written-off financial assets in the current year are credited by adjusting the allowance for impairment losses accounts. Recoveries of written-off loans from previous years are recorded as operational income other than margin income.

Against earning assets for *istishna* receivables, funds of *qardh*, *mudharabah* financing, *musyarakah* financing, assets acquired for *ijarah*, and commitments and contingencies which carry financing risk, such as bank guarantees and *Letter of Credit* (LC), the Bank implements Regulation of the Financial Services Authority (FSAR) No.2/POJK.03/2022 dated January 31, 2022 regarding "Asset Quality Ratings for Sharia Bank and Sharia Business Unit" which became effective on January 1, 2022.

**2. IKHTISAR KEBIJAKAN AKUNTANSI

Khusus untuk kualitas surat berharga dan penempatan pada bank ditetapkan menjadi 3 (tiga) golongan yaitu lancar, kurang lancar, dan macet. Sedangkan untuk kualitas penyertaan modal kualitasnya ditetapkan menjadi 4 (empat) golongan yaitu lancar, kurang lancar, diragukan, dan macet.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)****c. Allowance for Impairment Losses on Earning and Non-Earning Assets (continued)**

The minimum allowance to be provided in compliance with Financial Services Authority Regulation (FSAR) is as follows:

  - c) 50% of earning assets classified as Doubtful after deducting the collateral value; and
  - d) 100% of earning assets classified as Loss after deducting the collateral value.

The criteria for assessment of the value of collateral that can be deducted in the calculation of allowance for impairment losses are based on Financial Services Authority Regulations (POJK).

It is required to establish allowance for impairment losses for *Ijarah* and *Ijarah Muntahiyah Bittamlik* contracts against *Ijarah* receivable on the principal obligation for overdue lease. Furthermore, it is required to depreciate/amortize the assets of *Ijarah* and *Ijarah Muntahiyah Bittamlik*.

For marketable securities and placements with other banks, the quality rating is classified into 3 (three) classifications: current, substandard, and loss. Quality rating of equity investment is determined into 4 (four) categories: current, substandard, doubtful and loss.

The allowance for impairment losses on commitments and contingencies is presented as a liability in the statement of financial position under "Estimated Losses on Commitments and Contingencies account".

**2. IKHTISAR KEBIJAKAN AKUNTANSI  
(Lanjutan)****c. Cadangan Kerugian Penurunan Nilai Aset Produktif dan Aset Non-Produktif (lanjutan)**

Apabila manajemen berpendapat bahwa suatu aset produktif sudah tidak dapat ditagih kembali, maka aset tersebut harus dihapusbukukan dengan cara saldo aset produktif dikurangkan dari penyisihan kerugian. Penerimaan kembali aset produktif yang telah dihapusbukukan dicatat sebagai penambahan penyisihan kerugian tahun berjalan.

Aset non-produktif adalah aset Bank selain aset produktif yang memiliki potensi kerugian, antara lain dalam bentuk rekening antar kantor, agunan yang diambil alih dan *suspense accounts*.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)****c. Allowance for Impairment Losses on Earning and Non-Earning Assets (continued)**

**2. IKHTISAR KEBIJAKAN AKUNTANSI  
(Lanjutan)****p. Aset Tetap (lanjutan)**

Kenaikan nilai tercatat yang timbul dari revaluasi aset tetap dikreditkan pada "surplus revaluasi atas aset tetap" sebagai bagian dari penghasilan komprehensif lainnya. Penurunan yang menghapus nilai kenaikan yang sebelumnya atas aset yang sama dibebankan terhadap "surplus revaluasi atas aset tetap" sebagai bagian dari penghasilan komprehensif; penurunan lainnya dibebankan pada laporan laba rugi dan penghasilan komprehensif lain.

Penyajian revaluasi aset tetap dilakukan melalui akumulasi penyusutan pada tanggal revaluasi dieliminasi terhadap nilai tercatat bruto aset dan nettonya disajikan kembali sebesar jumlah revaluasi aset. Nilai akumulasi depresiasi dan harga perolehan dinaikkan secara proporsional sehingga nilai bersih aset sama dengan nilai revaluasi.

Setiap periode pelaporan, selisih antara penyusutan berdasarkan nilai revaluasi aset yang diakui di dalam laporan laba rugi dan penghasilan komprehensif lain dan penyusutan harga perolehan awal aset ditransfer dari "surplus revaluasi atas aset tetap" ke dalam "saldo laba".

**2. SUMMARY OF SIGNIFICANT ACCOUNTING  
POLICIES (Continued)****p. Premises and Equipment (continued)**

*Increases in the carrying amount arising from revaluation of premises and equipment are credited to "revaluation surplus on premises and equipment" as part of other comprehensive income. Decreases that offset previous increases of the same asset are debited against "revaluation surplus on premises and equipment" as part of other comprehensive income; all other decreases are charged to statement of profit or loss and other comprehensive income.*

*Presentation of revaluation of premises and equipment through accumulated depreciation at the date of revaluation is eliminated against the gross carrying value of premises and equipment, and the net is restated at the amount of revaluation of premises and equipment. The value of accumulated depreciation and acquisition price is increased proportionally so that the net value of premises and equipment is equal to the revaluation value.*

*In each reporting period, the difference between depreciation based on the revalued carrying amount of the asset charged to statement of profit or loss and other comprehensive income and depreciation based on the asset's original cost is transferred from "revaluation surplus on premises and equipment" to "retained earnings".*

*The revaluation of premises and equipment is carried out every year or has periodic regularity to ensure that the carrying amount is not different in material respect from the amount determined at fair value at the end of the reporting period, and in the event that premises and equipment is revaluated, all premises and equipment in the same class are revaluated.*

*Premises and equipment acquired in exchange for a non-monetary asset or for a combination of monetary and non-monetary assets are measured at fair values, unless:*

- (i) the exchange transaction lacks commercial substance, or*
- (ii) the fair value of neither the assets received nor the assets given up can be measured reliably.*

### p. Aset Tetap (lanjutan)

Penyusutan aset tetap dimulai pada saat aset tersebut siap untuk digunakan sesuai maksud penggunaannya dan dihitung dengan menggunakan metode garis lurus berdasarkan estimasi umur manfaat ekonomis sebagai berikut:

|                                | <b>Tahun/<br/>Years</b> |
|--------------------------------|-------------------------|
| Bangunan                       | 20                      |
| Kendaraan bermotor             | 5                       |
| Inventaris kantor              | 5                       |
| Komputer                       | 5                       |
| Perbaikan sarana dan prasarana | 5                       |

Masa manfaat ekonomis, nilai residu dan metode penyusutan dianalisa setiap akhir tahun dan pengaruh dari setiap perubahan estimasi tersebut berlaku prospektif.

Tanah dinyatakan sebesar biaya perolehan dan tidak disusutkan.

Konstruksi dalam penyelesaian dicatat sebesar biaya perolehan, yang mencakup kapitalisasi beban pinjaman dan biaya-biaya lainnya yang terjadi sehubungan dengan pendanaan aset tetap dalam penyelesaian tersebut. Akumulasi biaya perolehan akan direklasifikasi ke akun "Aset Tetap" yang bersangkutan pada saat aset tetap tersebut telah selesai.

Beban pemeliharaan dan perbaikan dibebankan pada laporan laba rugi dan penghasilan komprehensif lain pada saat terjadinya. Biaya-biaya lain yang terjadi selanjutnya yang timbul untuk menambah, mengganti atau memperbaiki aset tetap dicatat sebagai biaya perolehan aset, jika dan hanya jika besar kemungkinan manfaat ekonomis di masa depan berkenaan dengan aset tersebut akan mengalir ke entitas dan biaya perolehan aset dapat diukur secara andal.

Aset tetap yang sudah tidak digunakan lagi atau yang dijual dikeluarkan dari kelompok aset tetap berikut akumulasi penyusutannya. Keuntungan atau kerugian dari penjualan aset tetap tersebut dibukukan dalam laporan laba rugi dan penghasilan komprehensif lain.

### p. Premises and Equipment (continued)

Depreciation of premises and equipment starts when it is available for its intended use and is computed using the straight line method based on the estimated economic useful lives of the assets as follows:

|     | <b>Tarif Penyusutan/<br/>Depreciation Rate</b> |                              |
|-----|------------------------------------------------|------------------------------|
| 5%  |                                                | <i>Buildings</i>             |
| 20% |                                                | <i>Vehicles</i>              |
| 20% |                                                | <i>Office equipments</i>     |
| 20% |                                                | <i>Computers</i>             |
| 20% |                                                | <i>Leasehold improvement</i> |

The estimated useful lives, residual values and depreciation method are reviewed at the end of each year, with the effect of any changes in estimate accounted for on a prospective basis.

Land is stated at its amortized cost and is not depreciated.

Constructions in-progress are stated at cost, including capitalized borrowing costs and other charges incurred in connection with the financing of the said asset constructions. The accumulated costs will be reclassified to the appropriate "Premises and Equipment" account when the construction is completed.

The costs of maintenance and repairs are charged to statement of profit or loss and other comprehensive income as incurred. Other costs incurred subsequently to add to, replace part of, or service an item of premises and equipment are recognized as cost of assets if and only if it is probable that future economic benefits associated with the item will flow to the entity and the cost of the item can be measured reliably.

When assets are retired or otherwise disposed of, their carrying values and the related accumulated depreciation and any impairment loss are removed from the accounts and any resulting gain or loss is reflected in statement of profit or loss and other comprehensive income.

**q. Aset Sewa Pembiayaan**

Aset sewa pembiayaan disajikan di laporan posisi keuangan tergabung dalam aset tetap. Penyusutan aset sewa pembiayaan sesuai dengan tarif penyusutan aset tetap.

Pembayaran sewa harus dipisahkan antara bagian yang merupakan beban keuangan dan bagian yang merupakan pengurangan dari liabilitas sewa sehingga mencapai suatu tingkat bunga yang konstan (tetap) atas saldo liabilitas. *Rental* kontinjen dibebankan pada periode terjadinya.

Aset sewa pembiayaan dan Aset Hak Guna Sewa disusutkan berdasarkan taksiran masa manfaat ekonomis yang sama dengan aset yang dimiliki sendiri atau disusutkan selama jangka waktu yang lebih pendek antara periode masa sewa dan umur manfaatnya.

Masa manfaat ekonomis, nilai residu dan metode penyusutan direviu setiap akhir tahun dan pengaruh dari setiap perubahan estimasi tersebut berlaku prospektif.

Jika jumlah yang dapat diperoleh kembali dari aset non-keuangan (unit penghasil kas) kurang dari nilai tercatatnya, nilai tercatat aset (unit penghasil kas) dikurangi menjadi sebesar nilai yang dapat diperoleh kembali dan rugi penurunan nilai diakui langsung ke laba rugi.

**Aset Hak Guna dan Liabilitas Sewa**

Bank telah menerapkan PSAK No. 73 "Sewa" sejak tanggal 1 Januari 2020.

PSAK No. 73 menerapkan persyaratan baru atau amandemen sehubungan dengan akuntansi sewa. Standar ini memperkenalkan perubahan signifikan untuk akuntansi *lessee* dengan menghapus perbedaan antara sewa operasi dan pembiayaan, serta mensyaratkan pengakuan aset hak guna dan pengakuan liabilitas sewa pada saat dimulainya sewa untuk seluruh sewa, kecuali:

- a. Sewa dengan jangka waktu kurang atau sama dengan 12 bulan dan tidak terdapat opsi beli;
- b. Sewa atas aset dengan nilai rendah.

Berbeda dengan akuntansi *lessee*, persyaratan untuk akuntansi *lessor* sebagian besar tidak berubah. Dampak dari adopsi PSAK No. 73 pada laporan keuangan dijelaskan di bawah ini.

**q. Assets under Finance Lease**

*Assets under finance lease are presented in the statement of financial position as premises and equipment. The depreciation of assets under finance lease are adjusted to the rate of depreciation of premises and equipment.*

*Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Contingent rentals are recognized as expenses in the periods in which they are incurred.*

*Assets under finance leases and right of use assets are depreciated over their expected useful lives on the same basis as owned assets or, whenever shorter, the term of the relevant lease and its useful lives.*

*The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.*

*If the recoverable amount of a non-financial asset (cash generating unit) is less than its carrying amount, the carrying amount of the asset (cash generating unit) is reduced to its recoverable amount and an impairment loss is recognized immediately to profit or loss.*

**Right of Use Assets and Lease Liabilities**

*The Bank has applied SFAS No. 73 "Lease" since January 1, 2020.*

*SFAS No. 73 introduces new or amended requirements with respect to lease accounting. This standard introduces significant changes to lessee accounting by removing the distinction between operating and financing lease, and requiring the recognition of a right-of-use asset and a lease liability at commencement for all leases, except for:*

- a. Leases with a term of less or equal to 12 months and there is no call option;*
- b. Leases of low value assets.*

*In contrast to lessee accounting, the requirements for lessor accounting have remained largely unchanged. The impact of the adoption of SFAS No. 73 on the financial statements is described below.*

Tanggal penerapan awal PSAK No. 73 untuk Bank adalah 1 Januari 2020. Bank telah menerapkan PSAK No.73 menggunakan pendekatan retrospektif yang dimodifikasi dengan mengakui dampak kumulatif dari awal penerapan PSAK No.73. Dengan demikian, informasi komparatif yang disajikan untuk tahun 2019 tidak disajikan kembali sebagaimana dilaporkan sebelumnya, pada PSAK No. 30 dan interpretasi terkait.

The date of initial application of SFAS No. 73 for the Bank is January 1, 2020. The Bank has applied SFAS No. 73 using the modified retrospective approach by recognizing the cumulative impact of the initial application of SFAS No. 73. Thus, the comparative information as of 2019 is not restated as previously reported, in SFAS No. 30 and the related interpretations.

#### a. Dampak definisi baru dari sewa

#### a. Impact of the new definition of a lease

Perubahan utama dari definisi sewa berkaitan dengan konsep pengendalian. PSAK No. 73 menentukan apakah kontrak mengandung sewa atas dasar jika terdapat aset identifikasi dan lessee memiliki hak untuk mengendalikan penggunaan aset selama suatu jangka waktu tertentu untuk dipertukarkan dengan imbalan. Hal tersebut merupakan perbedaan penentuan kontrak merupakan, atau mengandung sewa berdasarkan PSAK No. 30 yaitu dengan konsep risiko dan manfaat.

The major change in definition of a lease mainly relates to the concept of control. SFAS No. 73 determines whether a contract contains a lease on the basis of whether identified asset and lessee has the right to control the use of an asset for a period of time in exchange for consideration. This is in contrast to the focus on 'risks and rewards' in SFAS No.30.

#### b. Dampak pada akuntansi lessee

#### b. Impact on lessee accounting

Bank menerapkan pendekatan pengakuan dan pengukuran tunggal untuk seluruh sewa, kecuali untuk sewa jangka pendek dan sewa aset bernilai rendah. Bank mengakui liabilitas sewa untuk melakukan pembayaran sewa dan aset hak guna yang mewakili hak untuk menggunakan aset pendasar.

The Bank applies a single recognition and measurement approach to all leases, except for short-term leases and low-value asset leases. The Bank recognized a lease liabilities to make lease payments and right-of-use assets that represent the right to use the underlying asset.

Bank mengakui liabilitas sewa sebesar jumlah pembayaran sewa yang masih harus dibayar hingga akhir masa sewa yang didiskontokan dengan menggunakan suku bunga pinjaman inkremental. Sedangkan aset hak guna mencakup jumlah liabilitas sewa yang diakui, biaya langsung awal yang dibayarkan, biaya pemulihan dan pembayaran sewa yang dilakukan pada atau sebelum tanggal mulai sewa, dikurangi insentif sewa yang diterima. Aset hak guna disusutkan dengan metode garis lurus selama jangka waktu yang lebih pendek antara masa sewa dengan estimasi masa manfaat aset.

The Bank recognized lease liabilities at the amount of lease payments accrued to the end of the lease term which is discounted using the incremental borrowing rate. While, the right-of-use assets includes the amount of lease liabilities recognized, initial direct costs paid, restoration costs and lease payments on or before the start date of the lease, less lease incentives received. Right-of-use assets are depreciated using the straight-line method over the shorter period between the lease term and the estimated useful life of the asset.

#### Aset Hak Guna dan Liabilitas Sewa (lanjutan)

#### b. Dampak pada akuntansi lessee (lanjutan)

#### b. Impact on lessee accounting (continued)

Jika kepemilikan aset sewa dialihkan ke Bank pada akhir masa sewa atau pembayaran sewa mencerminkan pelaksanaan opsi pembelian, penyusutan dihitung menggunakan estimasi masa manfaat ekonomis aset. Aset hak guna diuji penurunan nilainya sesuai dengan PSAK No. 48 Penurunan Nilai Aset.

*If the ownership of lease asset is transferred to the Bank at the end of the lease term or the lease payments reflect the exercise of the purchase option, depreciation is calculated using the estimated useful life of the assets. Right-of-use assets are tested for impairment in accordance with SFAS No.48 Asset Impairment.*

Pada tanggal dimulainya sewa, Bank mengakui liabilitas sewa yang diukur pada nilai kini dari pembayaran sewa masa depan yang akan dibayarkan selama masa sewa. Pembayaran sewa termasuk pembayaran tetap (termasuk pembayaran tetap secara-substansi) dikurangi piutang insentif sewa, pembayaran sewa variabel yang bergantung pada indeks atau suku bunga, dan jumlah yang diharapkan akan dibayar dalam jaminan nilai residu. Pembayaran sewa juga termasuk harga eksekusi opsi pembelian yang wajar jika dipastikan akan dilakukan oleh Bank dan pembayaran penalti untuk mengakhiri sewa, jika jangka waktu sewa mencerminkan Bank mengeksekusi opsi penghentian sewa. Pembayaran sewa variabel yang tidak bergantung pada indeks atau suku bunga diakui sebagai beban pada periode di mana peristiwa atau kondisi yang memicu pembayaran terjadi.

*On the initial lease date, the Bank recognized lease liabilities measured at the present value of future lease payments that will be paid over the lease term. Lease payments include fixed payments (including substantially fixed payments), less lease incentive receivables, variable lease payments that depends on index or interest rate, and the expected amount to be paid in a residual value guarantee. Lease payments also include the reasonable exercise price for the purchase option if it is determined to be made by the Bank and the payment of a penalty to terminate the lease, if the lease term reflects the Bank exercising the lease termination option. Variable lease payments that do not depend on an index or interest rate are recognized as an expense in the period in which the event or condition that triggers the payment occurs.*

Dalam menghitung nilai kini dari pembayaran sewa, Bank menggunakan suku bunga pinjaman inkremental penyewa pada tanggal dimulainya sewa karena suku bunga implisit dalam sewa tidak dapat ditentukan. Setelah tanggal dimulainya sewa, jumlah liabilitas sewa ditingkatkan untuk mencerminkan pertambahan bunga dan dikurangi pembayaran sewa yang dilakukan. Selain itu, jumlah tercatat liabilitas sewa diukur kembali jika terdapat modifikasi, perubahan jangka waktu sewa, perubahan pembayaran sewa, atau perubahan dalam penilaian opsi untuk membeli aset pendasar.

*In calculating the present value of lease payments, the Bank uses the lessee incremental borrowing rate at the inception date of the lease since the interest rate implicit in the lease cannot be determined. After the inception date of the lease, the amount of the lease liability is increased to reflect the interest increase and less lease payments made. Furthermore, the lease liabilities carrying amount is remeasured if there are modifications, changes in term of the lease, lease payments, or the valuation of the option to purchase the underlying asset.*

Information reported to the chief operating decision maker for the purpose of resource allocation and assessment of their performance is more specifically focused on the category of each product.

### **ag. Use of Significant Accounting Judgment and Estimates**

The preparation of the Bank's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities, at the end of the reporting period. Due to inherent uncertainty in making estimates, actual results reported in future periods might be based on amounts which differ from those estimates.

#### **Judgments**

#### **Going concern**

The Bank's management has made an assessment of its ability to continue as a going concern and is satisfied that the Bank has the resources to continue its business for the foreseeable future. Furthermore, the management is not aware of any material uncertainties that may cast significant doubt on the Bank's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

#### **Fair value of financial instruments**

All assets and liabilities in which fair value is measured or disclosed in the financial statements can be classified in fair value hierarchy levels, based on the lowest level of input that is significant to the overall fair value measurement:

Level 1: quoted prices (without adjustments) in active markets for identical assets or liabilities which are accessible at the measurement date.

The estimated useful lives of premises and equipment are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. In addition, estimate of the useful lives of premises and equipment is based on collective assessment of industry practice, internal technical evaluation and experience with similar assets.*

### **ag. Penggunaan Pertimbangan dan Estimasi Akuntansi yang Signifikan (lanjutan)**

#### **Umur ekonomis aset tetap (lanjutan)**

Tetap dimungkinkan, bagaimanapun, bahwa hasil masa depan dapat secara material dipengaruhi oleh perubahan estimasi yang disebabkan oleh perubahan faktor-faktor tersebut di atas. Jumlah dan saat pencatatan biaya untuk setiap periode akan dipengaruhi oleh perubahan dari faktor dan keadaan saat pencatatan. Pengurangan dari taksiran masa manfaat dari aset tetap akan meningkatkan beban usaha.

#### **Revaluasi pada aset tetap**

Bank mengukur aset tetap berdasarkan nilai revaluasi dengan perubahan nilai wajar yang diakui dalam penghasilan komprehensif lain dan dilaporkan dalam ekuitas. Pada tahun 2022, Bank menggunakan jasa penilai independen untuk menentukan nilai wajar aset tetap pada tanggal 31 Desember 2022. Lihat Catatan 15 untuk nilai tercatat aset tetap.

#### **Aset pajak tangguhan**

Aset pajak tangguhan diakui atas jumlah pajak penghasilan terpulihkan (*recoverable*) pada periode mendatang sebagai akibat perbedaan temporer yang boleh dikurangkan. Justifikasi manajemen diperlukan untuk menentukan jumlah aset pajak tangguhan yang dapat diakui, sesuai dengan waktu yang tepat dan tingkat laba fiskal di masa mendatang sejalan dengan strategi rencana perpajakan ke depan.

#### **Penurunan nilai aset non-keuangan**

Manajemen Bank mengevaluasi penurunan nilai aset non-keuangan apabila terdapat kejadian atau perubahan keadaan yang mengindikasikan bahwa nilai tercatat aset non-keuangan tidak dapat dipulihkan kembali.

Faktor-faktor penting yang dapat menyebabkan penelaahan penurunan nilai adalah sebagai berikut:

- a) performa yang tidak tercapai secara signifikan terhadap ekspektasi historis atau proyeksi hasil operasi di masa yang akan datang;
- b) perubahan yang signifikan dalam cara penggunaan aset atau strategi bisnis secara keseluruhan; dan
- c) industri atau tren ekonomi yang secara signifikan bernilai negatif.

## **2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

### **ag. Use of Significant Accounting Judgment and Estimates (continued)**

#### **Useful lives of premises and equipment (continued)**

*It is possible, however, that future results of operations be materially affected by changes in estimates brought about by changes in the aforementioned factors. The amounts and timing of recorded expenses for any period are affected by changes of those factors and circumstances during recording. A reduction in the estimated useful lives of premises and equipment increases the recorded operating expenses.*

#### **Revaluation of premises and equipment**

*The Bank measures the premises and equipment at revalued amounts with changes in fair value being recognized in other comprehensive income and reported in the equity. In 2022, the Bank engaged independent appraisal to determine the fair value of premises and equipment as of December 31, 2022. Refer to Note 15 for the carrying values of premises and equipment.*

#### **Deferred tax assets**

#### **Impairment of non-financial assets**

*The Bank's management assesses impairment of non-financial assets whenever events or changes in circumstances indicate that the carrying amount of non-financial asset may not be recoverable.*

*The factors that the Bank considers important which may lead to impairment assessment are the following:*

- a) *significant under-performance related to historical expectation or projected future operating results;*
- b) *significant changes in the manner of use of the assets or the overall business strategy; and*
- c) *significant negative industry or economic trends.*

## **2. IKHTISAR KEBIJAKAN AKUNTANSI (Lanjutan)**

### **ag. Penggunaan Pertimbangan dan Estimasi Akuntansi yang Signifikan (lanjutan)**

Bank mengakui kerugian penurunan nilai apabila nilai tercatat aset melebihi nilai yang dapat dipulihkan. Jumlah terpulihkan adalah nilai yang lebih tinggi antara nilai wajar dikurang biaya pelepasan dengan nilai pakai aset (atau unit penghasil kas). Jumlah terpulihkan diestimasi untuk aset individual atau, jika tidak memungkinkan, untuk unit penghasil kas yang mana aset tersebut merupakan bagian daripada unit tersebut.

#### **Estimasi liabilitas imbalan kerja**

Estimasi liabilitas imbalan kerja ditentukan berdasarkan perhitungan dari aktuaria. Perhitungan aktuaria menggunakan asumsi-asumsi seperti tingkat diskonto, tingkat pengembalian investasi, tingkat kenaikan gaji, tingkat kematian, tingkat pengunduran diri dan lain-lain.

Recoverable amounts are estimated for individual assets or, if not possible, for the cash-generating unit to which the asset belongs.

#### **Estimated liabilities for employee benefits**

Estimated liabilities for employee benefits are determined based on actuarial valuation. The actuarial valuation involves assumptions such as discount rate, expected rate of returns on investments, future salary increase, mortality rate, resignation rate and others.

Due to the long-term nature of this plan, such estimates are subject to significant uncertainty.

Berdasarkan Akta Perubahan Anggaran Dasar terakhir No. 49 tanggal 30 Desember 2019 dihadapan Notaris Aulia Taufani, S.H., bahwa penyertaan Bank atas saham seri A yang semula senilai Rp35.000.000 dengan persentase kepemilikan sebesar 33,33% menjadi sebesar 3,88%. Penurunan nilai kepemilikan dikarenakan Perseroan harus memperkuat struktur permodalan yang ditetapkan regulator dengan demikian diperlukan penambahan modal yang berdampak kepemilikan Bank di ALIF terdilusi. Setelah perubahan tersebut, Bank mencatat kepemilikan dengan metode *cost*/ Biaya dan telah mencadangkan keseluruhan dikarenakan terdapat penurunan nilai secara permanen atas investasi penyertaan tersebut.

Manajemen berpendapat bahwa jumlah cadangan kerugian penurunan nilai adalah cukup untuk menutupi kemungkinan kerugian yang mungkin timbul.

**12. INVESTMENTS IN SHARES (Continued)**

Based on the latest Amendment to the Articles of Association No. 49 dated December 30, 2019 of Notary Aulia Taufani, S.H., the Bank's investment in Series A shares which was originally valued at Rp35,000,000 with an ownership percentage of 33.33% becomes 3.88%. The decrease in the value of ownership is due to the Company having to strengthen the capital structure set by the regulator, thus it is necessary to increase capital which resulted in diluted ownership of the Bank in Al Ijarah. After the change, the Bank records its ownership using the cost method and has provided a full allowance due to a permanent decline in the value of the investment.

Management believes that the allowance for impairment losses is adequate to cover possible losses that might arise.
